Re: Application for National Pollutant Discharge Elimination System (NPDES) Permit  
McNary Lock and Dam, NPDES No. WA0026824

Dear Mr. Fiet:

Thank you for the NPDES permit application materials referenced above, which the U.S. Environmental Protection Agency received on August 7, 2015. The permit number assigned to this project is WA0026824. Please use this number in all future correspondence and reports.

An application to the EPA for an NPDES permit is complete when the Director receives an application form and any supplemental information which are completed to his or her satisfaction under 40 C.F.R. § 122.21(e)(1). We have completed our review of the application and have determined that it is complete as of August 7, 2015.

Please note that the EPA may request additional information during the development of the draft permit and fact sheet to clarify, modify, or supplement previously submitted material. If you have any questions, please contact Dru Keenan at (206) 553-1219 or [Keenan.dru@epa.gov](mailto:Keenan.dru@epa.gov).

Sincerely,

Michael J. Lidgard, Manager  
NPDES Permits Unit
